HBL Medical Equipment Importer

About us

HBL plc. is at work to meet the high demand for medical equipment and pharmaceuticals throughout Ethiopia. These two essentials are critically needed so that doctors can practice and care for their patients. Thus, we focus on a complete solution and not just on the "importer and distributor agency philosophy". It is with this determination that HBL plc. stepped ahead to find and bring on board expertise with a wealth of experience and know-how to advise and lead HBL plc. to the highest possible level. No matter how big the problem is we are determined to do our part.

Introduction

Mission & Vision

Our vision is to play one of the major roles in securing the health and well-being of all Ethiopians by providing the broadest range of sustainable healthcare products.

We are on a mission to do our utmost so that the lack of quality medical equipment and medicine should not be a cause for the death of Any Ethiopian, in this technologically advanced era.

Testimonials

Why Us?

“The technicians and product specialists of HBL Medical Equipment and Distributor plc have a very long experience with Dr. Mach lights and can be considered among the best worldwide. HBL is an exclusive distributor of Dr. Mach products for the Ethiopian market and we are proud to have such a partner in Ethiopia providing to the hospitals and doctors the exact service standards which we expect as a German supplier of high-quality products.”

**Mr. Gerhard Fischer Commercial
Director of Dr. Mach & GmbH & Co. KG
Ebersberg, Germany**

Our Team

Best Service

We have the best and well experienced Biomedical-technicians who ensure that every piece of medical equipment we install is maintained to the top of the line service quality, properly configured, and calibrated in a timely manner; so doctors can have a clear and correct diagnosis for the cure.
